Organizing Principles of the Internet Economy

Reinvent products Sustainable innovation is creating new products that can be produced with fewer carbon emissions, less waste and an emphasis on enhancing wellness. As the spread of the Internet and digital technologies reshapes the competitive landscape of industries, it is also revolutionizing the traditional flows of goods, services, finance, and people. Moreover, different businesses may have clashing views on, say, how to design and implement a multichannel strategy.

Book Reviews

Are you seeking market growth through innovation? New restaurants have no place for diners to sit. Tech companies should prioritize transparency, consumer protection, and data privacy as a forethought.

Gerry McGovern THE CARING ECONOMY: BUSINESS PRINCIPLES FOR THE NEW DIGITAL AGE 1

They have had to rework their business models, seeking revenue through social media and new forms of consumer engagement.

Culture for a digital age

Meanwhile, a business unit under pricing pressure was leaning heavily on functional specialists for an outsize investment to redesign the back office. The dominant companies, accustomed to the old approach, lose market share to a new group of companies. Cultural changes within corporate institutions will always be slower and more complex than the technological changes that necessitate them.

Omnichannel marketing in the new digital age

The Climate Fires of the West Coast of the United States continued to spread and the consequences were unthinkable. This dynamic can commoditize products and services as consumers demand comparable features and simple interactions.
