## Ungulata. Order VI. Ungulata. Continued. Part 2

It is believed that this cooling was due in part to dust and debris that was thrown into the atmosphere by the meteorite collision. A number of measures have been implemented to increase awareness such as fencing, feeding programs, automobile whistles. The Apocyclops panamensis material was placed at our disposal by Gamal El-Shabrawy National Institute of Oceanography and Fisheries, Cairo, Egypt.

## Ungulata. Order VI. Ungulata. Continued. Part 3

Dictionary of Fossils, 3 volumes, 1,284 pp.

## Mammalian Fauna of the Middle Eocene Kishenehn Formation, Middle Fork of the Flathead River, Montana

. In an effort to free display space I began cross-referencing species from different formations to compile at least what I believe is very accurate species identifications and to place the best example of each species regardless of formation within my display cabinets fig.

## Miocene Cyclopoid Copepod from a Saline Paleolake in Mojave, California

Fossils have not only been found in Mongolia, but also in North America.

## Miocene Foraminifera of the Gulf of Suez Region, U. A. R. Part 4: Paleoecology and Age on JSTOR

In recent years, Micropaleontology has become increasingly important in providing basic data for research on organic evolution and the history of climate change, ocean circulation, and development of global ecosystems. Systematic description of 25 gastropod species from the Khari Nadi Formation Aquitanian and Chhasra Formation Burdigalian from the Kachchh District, Gujarat, India is given.

## Molluscan fauna from the Miocene sediments of Kachchh, Gujarat, India — Part 3. Gastropods

The Mind of Man, But to his animal organization there is superadded the conspicuous peculiarity of a high intellectual growth which is absolutely unique, and which sets him apart in a great department of his own.

### **2009 in mammal paleontology**

Contains Additions to the Fauna of San Diego ; Notes on the Geology of Baja California; Land and Fresh-water Shells of Lower California; New Californian Carices; Flora of the Cape Beglon of Baja California. Internal cast from the Ochopee is probably *Ficus jacksonensis* from the Pinecrest. A preliminary zonation of the continental Neogene of Anatolia based on rodents.
