Gender equality through school: providing a safe and inclusive learning environment

Federations of children's centres run by community groups and voluntary organisations would be encouraged, and Labour would also introduce measures to improve standards and the qualifications of the childcare workforce. Standard 3: The physically literate individual demonstrates the knowledge and skills to achieve and maintain a health-enhancing level of physical activity and fitness.

Gender equality through school: providing a safe and inclusive learning environment

A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases.

1 Recommendations

Local authorities should coordinate the availability of facilities, where appropriate.

School Health Education

Differences Among Elementary, Middle, and High Schools Instructional opportunities vary within and among school levels as a result of discrepancies in state policy mandates. Influences of personal and lesson factors on caloric expenditure in physical education.

Using informal education

Using Informal Education, Buckingham: Open University Press. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of

current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. Estándar 4: La persona físicamente alfabetizada demuestra un comportamiento personal y social responsable que muestra respeto por sí misma y por los demás.

Coronavirus (COVID

Funding This study was supported financially by the Arthritis Research UK Centre for Sport, Exercise and Osteoarthritis Grant reference 20194 through the Internship Scheme; University of Nottingham, Economic and Social Research Council and the Medical Research Council. **Limitations of this study** The strengths of this study are that the analyses were based on a substantial national data set with excellent response rates for state schools in England, at the top end of previous similar studies, , , and those data were collected using validated questionnaires.

Understanding the Impact of Educational Governance at the Local Level: The Local School District Office

Also, provision of timetabled physical education in schools reduced dramatically from Year 10 and was very low for Years 12—13, with the majority of schools not meeting the government's recommendations for physical education provision for these older year groups.
