The answer is pretty tricky.

What is Mineral Oil?

Do any products not use oil and preservative with 2 years shelf life at room temp? Also body oils can form persistent stains, especially at cuffs and collars.

Mineral oil

Mineral oils can be used to moisten and protect the skin.

Mineral Oil

However, as additives cannot produce a desired biodegradability, these attempts to modify mineral oils into a highly biodegradable base stock are doomed to be unsuccessful. After a day or two, use a rubber bulb syringe to gently squirt warm water into your ear canal. Obviously, I am no medical doctor and thank goodness, as their solution was medication when he was diagnosed but Arbonnizing our home is what I contribute to our improved health.
