Terrestrial animals are few, and several species, among them polar foxes, ground squirrels, and reindeer, were imported into the archipelago within historic times. Ethnographer, Missionary, Archaeologist, Folklorist, Linguist, Indigene, and so on.

## TATTOOING & PIERCING AMONG THE ALASKAN UNANGAX (ALEUT)

The cool temperatures mean that the woody stems and buds on shrubs cannot become strong enough by autumn to survive dessication by the frequent cold, dry winter winds. Sitka Spruce have been planted in several places in the village of False Pass where they have grown to a height of about 20 feet. Marine giants —whales, can be seen In the immediate vicinity of the islands.

## Inferring Population Continuity Versus Replacement with aDNA: A Cautionary Tale from the Aleutian Islands

Birch bark was also used, apparently obtained in trade from the Alaskan mainland, as were caribou hair and sometimes skins. They married, as

there was nobody else, and at least one of them became with child. A hospital was built in Unalaska in 1933 by the U.
