S.I. No. 455/1998

Short-term repairs including provision of basic services and a baseline healthy environment are a first priority, but must be consistent with long-term transformation. This includes the encroachment of urban development on viable agricultural land, air pollution, water pollution and waste management. The change of status was to be made retroactive to June 11, 1974, the date of release of said examination.

The Reconstruction and Development Programme (RDP)

TERMINATION OF OFFICIAL RELATIONS CSC v. The RDP raises many challenges in its implementation because it involves processes and forms of participation by organisations outside government that are very different to the old apartheid order.

ILC 89

Where the level of employment reduction is low, current operations can finance the costs of retrenchment. Information is today considered a commodity of great significance, and South Africa must now catch-up in order to take advantage of the changing technological and economic roles that telecommunications can play.

The Reconstruction and Development Programme (RDP)

The roles of various entities in the private sector the construction and supplies industry, etc.

S.I. No. 18/2014

The Convention also contains provisions relating to medical care. The ten countries with the highest labour costs include only two with high

employer contributions of 20 per cent or more.
