Mnemonic devices with the use of imagery, graphic organizer, and dramatization are useful also for storing the information they have processed. Hutchins explains that the Samurai were warriors centuries before World War II but that the Samurai spirit definitely was a part of the Japanese view of combat. If one particular way provides the highest utility in terms of students' understanding of the content, then guidance should be provided to students as to the critical aspects of the information.

The Art and Science of Teaching: A Comprehensive Framework for Effective Instruction (EBOOK)

Groups are invited to present their graphic representations and summaries to the whole class. The teacher has to make the students consciously go through this exercise to help them strengthen their learning. Most of the points made are common sense dressed up in the jargon of the day.
