Leaf 40; recto, list of plates alphabetically referenced to English names; verso, blank. But it was not criticism of the Royal Society but of the Civil Service that served to promote a revitalisation of the universities of England—that is to say Oxford and Cambridge, there were no others until the origination of University College in 1826. Farmers who have been experimenting with new flooring techniques described their designs, and showed convincingly that there are financial advantages to be gained by abandoning the traditional use of straw as an indoor furnishing for livestock.

That first edition was composed of about 1,250 copies and is considered the most desirable because its plates were supposedly colored more carefully and did not contain the tintstone lithographic backgrounds that are present in most of the plates of the numerous later editions which were published in much smaller print runs through 1871, and perhaps later. This volume is a comprehensive description of the geology and natural history of the island based on a ten-month stay by Andrews during 1897 and 1898.
