### Classification of supersonic flow over a rigid parachute model with suspension lines

Both in RA file 1020.

### Reentry Vehicle Development Leading to the Minuteman Avco Mark 5 and 11.

Figure 12 shows the fit of the flight data of maneuver C compared with the estimated data obtained by Estimator III. Representatives of Department of Defense agencies, industry and the U. As in other rotor noise prediction areas, the specification of the aerodynamic inputs for the calculations require further work.

### notes

Hartman, Adventures in Research, A History of Ames Research Center 1940-1965, National Aeronautics and Space Administration, Scientific and Technical Information Office, 1970, NASA Center History Series, SP-4302, 216 218.

### Full text of ADA014640: A Comprehensive Review of Helicopter Noise

There is also a possibility for use in very low non-gelling concentrations which may still provide antimisting kerosene AMK characteristics, in which case there would be no weight penalties and no reaction time would be required.
