Jack London's two big mistakes during his “Cruise of the Snark” adventure.

Thus, the navigator endeavouring to find his ship's position on the sea, looks in his chronometer to see where precisely the sun ought to be according to the Greenwich custodian of the sun. No hidalgo was ever more generous in the expression of giving, while I am sure that few hidalgos were ever as generous in the actual practice. When he arrived in Tahiti, he proceeded to seek out a piece of land on which to grow the food he ate.

But I must have got some farther, for as I came charging in to land, that miserable board poked its nose down to bottom, stopped abruptly, and turned a somersault, at the same time violently severing our relations. I caught a glimpse of the great social problems being settled by the city populations swarming naked over the landscape, to the popping of shot-guns, the barking of ranch-dogs, and countless assaults with pitchforks wielded by irate farmers.

Cruise of the Snark

This was a dangerous journey. Now an Oregon winter has no inducements for those who wish to return to Nature, so Darling started out in search of a climate. London arrived sixty-five years later, just in time to see the very last remnants of the world Melville found disappearing into a sort of twilight memory among the very few survivors of the Typee.

Cruise Snark, First Edition

Confessions of an English Opium Eater by Thomas De Quincey 99. Suppose, instead of being sixty miles off Futuna, that my navigation was all wrong and that I was only six miles off? One never knows when he will be able to replenish his supply.
