## Scientific Revolutions

Modern science and the scientific method were born; the rate of scientific discovery exploded; giants such as Copernicus, Vesalius, Kepler, Galileo, Harvey, Newton, and countless lesser figures unlocked world-changing secrets of the universe. I do so throughout this book with keywords: literary knowledge, science, trope, and gender.

## Bacon on the Origin of Error and Prejudice

Dijksterhuis, The Mechanization of the World Picture trans.

## Vol. 18, No. 3, Nov., 1967 of The British Journal for the Philosophy of Science on JSTOR

. Interestingly, urban apiculture may help with that, too. The use of the experimental method in natural philosophy is undoubtedly a characterizing feature of the scientific revolution, but the method itself was not newly invented in this period.

## John Wallis and Isaac Barrow: tradition and innovation and the state of mathematics

Alexandre Koyré The Astronomical Revolution trans.

## Joseph Glanvill

The idea of natural equality and rule by reason was also getting an explicitly political interpretation at this time. You could prepare for such a lecture by reading Burt's Metaphysical Foundations, Kuhn's Copernican Revolution, Hall's Revolution in Science, Koyré's Metaphysics and Measurement. Descartes's own theory of nature was mechanistic, materialistic, and mathematical, hence deductive and deterministic.

## Scientific Revolutions

This thesis is untenable on a number of grounds.
