Tse W, Cersosimo MG, Gracies JM, Morgello S, Olanow CW, Koller W.

Neurological manifestations of COVID

Click on the link to go to ClinicalTrials. That way you will be able to recognize the symptoms and ask for help on time.

Neurology of Systemic Disease

Conclusion: While COVID-19 typically presents as a self-limiting respiratory disease, it has been reported in up to 20% of patients to progress to severe illness with multi-organ involvement. Symptoms of other types of systemic candidiasis depend on the organ or system which is infected. Parkinsonism in cirrhosis: pathogenesis and current therapeutic options.

Functional neurologic disorders/conversion disorder

These seizures usually affect muscles in your back, arms and legs and may cause you to lose consciousness and fall to the ground. Recognizing when a neurologic concern is related to immune-mediated or alternative mechanisms is a critical role for the neurologist as treatment decisions may be based on this assessment.
