### Sustainable development

Being far away from the centres of decision-making, mountain communities, in totality, suffer from inadequate decision-making, they pointed out, adding that voices and concerns of people from the community along with other stakeholders must be taken into account while the government prepared plans for conservation and development.

## **Empowerment for Sustainable Tourism Development**

Poland has been changing its tourism policy, turning away from the centralized tourism planning and instead turning toward distributing responsibilities for regional and local development to relevant authorities.

### **‘Community empowerment vital for sustainable development’**

Sustainable tourism development guidelines and management practices are applicable to all forms of tourism in all types of destinations, including mass tourism and the various niche tourism segments. Looking ahead, the recommendations also contain measures for the recovery of the sector.

### **‘Community empowerment vital for sustainable development’**

The second is national and looks at how one country responded to the challenges of tourism development through a comprehensive policy framework to advance indigenous community interests but despite which fails the test of empowerment. Genre: Dissertation Subject s : Abstract: The question of tourism in post-communist transition has been one of the key concerns of policymakers in Central and Eastern Europe. Tourism has been proven to provide pathways to empowerment, and that the opportunity for tourism to make a difference in this area should be maximized.
