### Woodland Statistics

The original intention of the 1938 Census of Woodlands was to obtain information on both area and volume of woodland, by surveying all woodland of five acres or more in extent, whether private or state-owned, a sample of woods between one and five acres, and a sample of hedgerows. Poole became Dorset's busiest port and established prosperous trade links with the fisheries of which supported cloth, rope and net

manufacturing industries in the surrounding towns and villages. The disease, more commonly known as the , created an epidemic that spread rapidly and wiped out a third of the population of the country.

### **Horton with Woodlands Parish Dorset**

First popularised as a tourist destination by frequent visits to Weymouth, the county's coastline, seaside resorts and its sparsely populated rural areas attract millions of visitors each year. It has a tower built on a hill here by H Sturt Esq.

### **Edmondsham, Dorset**

However, Dorset was devastated by the bubonic plague in 1348 which arrived in Melcombe Regis on a ship from . Have you found an error with this catalogue description? There were two mills recorded for flour and grain in 6 acres of meadow with the River Stour flowing at the edge of the village.
