## RELATIONSHIP BETWEEN SENIOR SECONDARY SCHOOL STUDENTS' ATTITUDE TO MATHEMATICS AND THEIR PERFORMANCE

No one likes being badgered and pestered, and your students are no exception. Some research suggests that preschool children who have a lot of conflict with their teachers show increases in stress hormones when they interact with these teachers Lisonbee et al.

### Productive Teacher Student Relationships Affect Students' Results

Conversely, according to Bandura 1997 teachers with low confidence tend to dwell on their deficiencies and view situations as more difficult than they really are. For example, you may need to spend time with them individually to get to know them better — to understand their interests as well as what motivates them.

### Improving students' relationships with teachers

Teacher-child relationship quality and academic achievement in elementary school: Does gender matter? Likewise, CDP appears to have some long-lasting effects; students enrolled in the CDP elementary schools were less antisocial and more prosocial in middle school as well Battistich et al.

### Why Strong Teacher Relationships Lead to Student Engagement and a Better School Environment

However, poor performance in mathematics has been observed at various educational levels, and has raised serious concern from different researchers and educators from across border and within the border, which has led to the emergence of several workshops, seminars, and debate on the subject matter.

### How Teachers Build Great Relationships With Students

Taking the time and effort to learn about cultural differences isn't a frill.
