## Featured Article: Documenting Bronchiolitis

Affiliations: Department of Pediatric Pulmonology, Maternal and Child Health Hospital of Hubei Province, Wuhan, Hubei 430070, P.

### Bronchiolitis in babies

Based on treatment regimen, the cohort was divided into group A and group B. There were no significant differences in sex, age, pulmonary function and symptom assessment between group A and group B at the time of PIBO diagnosis.

### Viral respiratory diseases in children: Classification, etiology, epidemiology, and risk factors

The etiology of BO include infection, organ transplantation, connective tissue disease and exposure to toxic fumes, and the most common cause of BO in children is infection ,.

### Bronchiolitis

Frequency dependence of resistance and elevated AX suggest nonuniform distribution or heterogeneity of ventilation in the small airways.

### [PDF] Post

Bronchiolitis causes inflammation of the small airways in the lungs that are called the bronchioles. Nosocomial outbreaks of RSV can be controlled by adhering to contact and respiratory precautions. The respiratory rate in group A was significantly lower compared with group B.

### Bronchiolitis in babies

Nonparametric Estimation from incomplete observations.

## **Bronchiolitis**

Make friends with other parents-to-be and new parents in your local area for support and friendship by seeing what are happening nearby.

## **Patterns of onset and outcome of cryptogenic organizing pneumonia after allogeneic hematopoietic stem cell transplantation**
