Famous for more than Five Minutes

Disable tracking Privacy Any personal data that you send us will generally be kept for five years before the records are removed. Planning and Activities Create travel scrapbooks to compare your local area to the Caribbean or the moon; Finally send a postcard home describing the Caribbean and moon destinations.

Explorers: Key Stage 2

Including detailed activities and tips on problem solving and assessment, this product is a perfect companion for Numicon teachers. Throughout the notes and guidance, examples show how scientific methods and skills might be linked to specific elements of the content. Using creativity and scientific research skills, students will create a menu suitable for an Arctic expedition.

Science

A great read for adults as well as kids! At Stewart Headlam, we strive to embed a broad knowledge and vocabulary of the living world, geology, chemistry and physics as well as develop skills to work scientifically; asking questions, making predictions and making careful observations.
