## The Mysteries of New York A Tale of Real Life by Buntling Ned

The man is insistent that he is from a nation over 1,000 years old situated on the border between Spain and France. Sometimes it's the cure that kills you! The tells a strange pair of stories over 150 years apart, both set in Pype Hayes Park, Birmingham, England. This wouldn't bother me so much were it not for the fact that the author ends on a chapter openly stating that it's somehow a conclusion to the drama and one of the plotlines is hastily explained away.
