Sustaining the World's Wetlands: Setting Policy and Resolving Conflicts (Springer Series on Environmental Management)

By the beginning of the second century the first dikes were built when the connecting roads between the mounds and the walls of the salt marshes were leveled. Dreissenids may have re-engineered nearshore transparency and phosphorus dynamics in a number of ways, stimulating benthic algal growth, including that of the nuisance *Cladophora*, which was a sentinel indicator of eutrophic conditions prior to phosphorus control Hecky et al.

LAC BANGWELO : définition de LAC BANGWELO et synonymes de LAC BANGWELO (français)

Steps will probably be taken to conserve endemic fishes through FPAs in the African Great Lakes. As the German part of the Wadden area extends over four federal states Lower Saxony, Bremen, Hamburg, and Schleswig-Holstein the legal powers required for protection of the area as a total entity are dissipated.
