## Coronavirus Could Incite New Superpower Conflict Between US and China — Valdai Club

Thanks to its voracious consumption of raw materials, the Chinese economy is already the central hub for many emerging economies in the Global South. Without this altered understanding of China, Washington policymakers will struggle to contend with Beijing and its intensifying challenge to American global primacy.

## China: The New Lone Superpower?

When nearly 30 global leaders smiled for a group photo, Beijing's usual smoggy backdrop was not in the frame. On Saturday, the Mail launched a new series uncovering 's role in fuelling the pandemic.

## China in 2020: A New Type of Superpower on JSTOR

So far, Beijing has been amassing the means and seeking the geopolitical influence to confront the United States in the Western Pacific as well as positioning itself for a broader global challenge. This formed the basis of a worldview in which the Chinese sat atop the hierarchy. At first, it seems like China is the strongest contender for the coveted no.

## What Kind of Superpower Will China Be?

Then, as now, there was a central military theater in which the contenders confronted each other most directly: Central Europe. For this purpose, long-term loans on a low interest have been extended. .
