## Sindh Cultural Day

Hargreaves 1925—1926 , and 1927—1931.

## Social Structure Of Indus Valley Civilization

The large cities of and very likely grew to contain between 30,000 and 60,000 individuals, and the civilisation itself during its florescence may have contained between one and five million individuals. Our modern human society was completely unaware of this glorious ancient civilization until the discovery of Harappa. So rich and diversified is this heritage that Pakistani nation can be proud of its glorious past, be Islamic, Post Islamic or pre-Islamic period as far back as pre-historic times.

## Indus Civilisation

This is the pre-Aryan period, about 3,000 years BC.

## Indus Civilisation

This widespread fluvial redistribution of sediment suggests that reliable monsoon rains were able to sustain perennial rivers earlier during the Holocene and explains why Harappan settlements flourished along the entire Ghaggar-Hakra system without access to a glacier-fed river. Burial Practices of Harappan Civilization The archaeological pieces of evidence suggest that Harappan used 3 main methods to dispose of their dead bodies. Moreover, 71% of marine resources, 65% of freshwater fish resource and 100% of saltwater fish resource of the country are located in Sindh.

## Sindh Cultural Day

Indo-Aryans of Ancient South Asia.
