Swifts
by Suzannah Evans

We are on the phone when I see them
the first of the year, little miracles
above the stained bricks and scratchy trees
of my neighbourhood. Not screeching yet
but wheeling, the light priming the edges
of their knifeblade wings. We might look
fragile to them, so reliant as we are
on our houses and our things, so tied
by gravity to one hemisphere. You saw yours
today too and you are not so far away
but a distance I'm not allowed to travel.
A blessing for those of us who notice things.
I'll see you soon you say. I'll see you soon.

Now a professional adventurer and renowned motivational speaker, he recently set a new Guinness World Record, cycling the entire length of the Pan-American Highway faster than ever before.

Dean Stott

On the opposite shore, the only branch of the main channel, of any importance, still unnoticed, is Jordan River, a clear, shallow stream, in dry weather little more than a chain of ponds, which, after watering a tract of exceedingly beautiful country, disem- bogues in an inlet called Herdsman's Cove, situated near the head of the Derwent estu- ary, having been previously joined by Struth- allen Creek.

I have elsewhere stated, that the fine river which we have now traced to its em- bouchc, is nangible for large ships to Sul- livan's Cove, Ilobart Town ; by smaller vessels, to about a mile-and-a-half above Elizabeth Totmi, or New Norfolk, where the channel is effectivly barred by a ridge of rocks, chiefly under water, over which the river flows swiftly in a broken current forming what is locally called the Fulls ; immediately above them the stream pre- sents a deep and long reach, until again impeded by a similar obstruction.
