Fantasy

Leopoldo Cervantes

In a quiet corner of the Imperial City, Investigator Narin discovers the result of his first potentially lethal mistake. Every real Friendship is a sort of secession, even a rebellion... Hence if our masters... ever succeed in producing a world where all are Companions and none are Friends, they will have removed certain dangers, and will also have taken from us what is almost our strongest safeguard against complete servitude. The majority of pages are undamaged with some creasing or tearing, and pencil underlining of text, but this is minimal.
