### New Jersey Legislature

It will evaluate whether decisions are made at the appropriate level to meet vessel and terminal performance measures, and whether a different organizational or management structure would help improve efficiency and effective operations. A policy workgroup composed of legislators and a member of the Governor's staff will oversee the study.

### Study Committee Reports

The study will be conducted with a panel of experts including a consultant and at least two nationally recognized design-build experts, and representatives from the Association of General Contractors, the American Council of Engineering Contractors, the Professional and Technical Employees Local 17, and WSDOT.

### Joint Committee on Transportation

By January 1, 2013, WSDOT shall provide the oversight committee a phased master plan for the project. JTC Staff: Mary Fleckenstein lead; Gene Baxstrom, back-up HTC and STC Staff: Beth Redfield, Kelly Simpson and Kim Johnson Stormwater Management Costs and Efficiencies. This study will identify ways to improve the process by which cities are reimbursed by WSDOT for managing stormwater runoff from state highways within city boundaries, and to make stormwater management on these facilities more efficient.

### New Jersey Legislature

The study must include a review of the regulatory framework used by local jurisdictions in Washington and in other states, an evaluation of the most effective public safety aspects of a regulatory framework, including the type of required background checks, and an assessment of the most effective and efficient state and local regulatory structure. Phase II is to be completed by December 31, 2020.

### Study Committee Reports

Committee members from states on the shipping routes have worked with the DOE to plan several shipping campaigns involving transuranic waste and spent nuclear fuel traveling through the Midwest. Reports: July 2021, June 2021, May 2021, Jan 2021, Dec 2020, Dec 2020, Dec 2020, Dec 2020.

## Study Committee Reports

The study must assess rail safety governance for passenger and freight rail, including rail transit services, and must consider recommendations made by the National Transportation Safety Board NTSB in its 2017 Amtrak Passenger Train 501 Derailment Accident Report. The report identified steps for implementing numerous mid and long-term transportation funding approaches for state and local transportation systems, estimated revenues from those approaches, and assessed revenue alternatives impact on owners of various types of vehicles. Members of the workgroup include staff from the Office of Financial Management, the Transportation Commission, WSDOT, the State Treasurer's office, and the House and Senate Transportation Committees.

## Study Committee Reports

For Phase II a JTC-appointed commission or panel shall review the assessment from Phase I and make final recommendations to the legislature for consideration during the 2021 legislative session on a realistic, achievable plan for funding transportation programs, projects, and services over the next ten years including a timeline for legislative action on funding the identified transportation system needs shortfall. Budget: Within existing funds Report due date: January 15, 2015 JTC Staff: Beth Redfield, with all JTC staff as back-up 2013-14 Columbia River Crossing Oversight Subcommittee ESSB 5024, Sec 204 3 directs the Joint Transportation Committee to continue the CRC Oversight Subcommittee in the 2013 interim, in order to educate legislators and others about Columbia River Crossing project, and to improve the flow of information between WSDOT and the legislative branch.

## Joint Committee on Transportation

The final report is due by December 14, 2018.
