## Disparities in caesarean section prevalence and determinants across sub

The second phase is known as the maturing or process development stage. New York and Geneva: United Nations. We cannot always rely on foreign aid as the huge levels of investments in the different sectors need to be made not only once, but multiple numbers of times.

## FOREIGN DIRECT INVESTMENT AND ECONOMIC GROWTH IN SUB

Therefore, they try to invest in countries where maximum profits are assured and leave immediately when long-run losses are pending.

## FOREIGN DIRECT INVESTMENT AND ECONOMIC GROWTH IN SUB

Following this findings the study recommends that Effort should be geared in attracting foreign capital into other growth- inducing sectors of the economy, especially the manufacturing and agricultural sectors.

## Credit risk and bank competition in Sub

The capital to output ratio indicates the value of capital required to produce one unit of output in a single time period. Abstract Most African countries inherited a dual economic structure and high levels of inequality from the colonial times, and inequality has remained high since independence. Households saving behavior in Pakistan: A case of Multan district.

## Determinants of banking sector development: Evidence from Sub

The mode of delivery among women was the primary outcome variable. The empirical evidence revealed the following findings: both the long-run and short-run results found statistically significant positive effects of the log of GDP, log of electricity production and telephone on FDI in Ghana.

### **Analysis of the determinants of foreign direct investment in Ghana**

On the other hand, if fiscal imbalances are corrected by curtailing public investment, private investment would be reduced, given the complementarity between public and private investment. This is in line with the long-run findings. The real interest rate was used as an additional variable to capture the effects of financial liberalization and deepening.

### **Renewable energy and environmental quality: A second**

However, countries with well-developed financial markets gain significantly from FDI. Another important result concerns the effects of the rates of private and government investment on economic growth.
