CLEMENS VENCESLAUS ZEBRACENUS A LYBEO MONTE, LECHIADOS LIBRI IV (ca 1632)

A few moments' observation shows us what that reason was.

LIBRIS

The wall then took a northeasterly course, between St.

LIBRIS

В связи с тем что сейчас посещение читальных залов библиотек ограничено, документ доступен онлайн. I now resume the enumeration of the historical notices of Roman London. London Stone, a cubic foot of oolite, protected in by an iron grating, is probably a Roman relic, and is typical of the mutilated and unshapely condition of almost all that has been discovered.

Staff View: VENCESLAI CLEMENTIS a Lybeo

A little to the westward was , a port of superior importance to that on the Fleet, and still further west, above the bridge, the smaller port of at the mouth of the. But the buildings to which they belonged were more probably outside the wall of the Roman castle.
