## Destiny by Design

I have written that which should not be forgotten: In 1891, Baron Maurice Hirsch helped save the lives of countless, Eastern European Jews including my ancestors by establishing the Jewish Colonization Association. From Leah's life in Russia through her life in the United States, the character of Leah is well written and believable.

Kudos on your new novel! I will also post it on the Jewish Historical Fiction website, for the best attempt at your targeted audience. She's done her best to participate, even when not feeling well. It swept her from the burning villages of old Russia to the tenements of New York, from the glittering showrooms of Paris to the settlements of war-torn Israel.

**Leah's Journey book by Gloria Goldreich**

I have never received an apology or any admission of wrongdoing from anybody involved. I love how God has something so special for her in spite of never having the earthly romance she wanted. Odessa- not a place for jewish people - Abramovitz Family leaves.
