### 2019 Ontario Economic Outlook and Fiscal Review: A Plan to Build Ontario Together

One business owner indicated that he typically hires 50—60 people each summer and that revenues have grown every year with the attraction of more boats to the Port. Droughts could reduce the production of forage for cattle and grain for poultry. Received from program November 2, 2010.

### Evaluation and Social Return on Investment Resources

Text version Table 3 illustrates the breakdown of CFO clients surveyed as part of the CFP evaluation in each of the five Canadian regions covered by the CFP. The lack of broadband connectivity in rural communities only 38 per cent of rural households have access to high speed internet hampers their technology adoption and competitiveness, impedes their ability to attract businesses, and further limits their access to regional, national and international markets. Table 10 The number of CFOs found in each region, the range of activities offered by each CFO, and the approach used by each RDA to manage the various programs they deliver, are among some of the factors that may explain the differing administration costs.

### 2019 Ontario Economic Outlook and Fiscal Review: A Plan to Build Ontario Together

Ultimate Outcomes Ultimately, the intermediate outcomes are expected to lead to the program's ultimate outcomes of economic stability, growth and job creation, diversified and competitive local rural economies and economically sustainable communities. Annex C presents the list of projects included in the file review. Some interviewees believe the NODP could better address the needs of the region by investing more directly in businesses and targeting its resources to fewer, larger, and strategically positioned projects.

### Early stage investing challenges

That is why the government is creating a business-friendly environment by reducing taxes, encouraging regional and innovative investments, and

eliminating outdated and duplicative regulations, while making sure that important health, safety and environmental protections are maintained or enhanced. Provide learners as consumers with a concise goal and manage expectations of GH programs.
