Ludwig Wittgenstein (Author of Tractatus Logico

Originally Nedo saw his work on the papers as something he could do part-time while pursuing his own scientific research, but it soon became evident that this was impossible, and he devoted himself to the edition. He generated, rather, a vast body of work perhaps united only in its therapeutic and intricately labored search for conceptual clarification.

Wittgenstein's Aesthetics (Stanford Encyclopedia of Philosophy)

And any rule for interpretation will itself be subject to a variety of interpretations, and so on.

Ludwig Wittgenstein (Author of Tractatus Logico

Karen Armstrong makes this point in her article see link in the post. Such was his perfectionism that during his lifetime he published only a single book, of seventy-four pages.

And these examples, given due and detailed attention, will exhibit a context-sensitive particularity that makes generalized pronouncements hovering high above the ground of that detail look otiose, inattentive, or, more bluntly, just a plain falsification of experience. He donated some of his money, at first anonymously, to Austrian artists and writers, including and.

Ludwig Wittgenstein (1889

Themes from the Philosophy of Crispin Wright, OUP.
