### Fleabites: Symptoms and Treatments

Mix at the rate of 1 oz. Different treatments work better during different stages of a flea's life cycle.

### 3 Ways to Get Rid of Fleas

Thoroughly clean areas where fleas frequently breed. By following these treatments for getting rid of fleas, and continuing using preventative measures, you'll hopefully keep them out of your home and off your pets.

### Fleas

Even if your pet is treated with regular flea-prevention medication, some are bound to show up.

### 3 Ways to Get Rid of Fleas

The insect growth regulators methoprene and pyriproxyfen can be used indoors. Begin flea control treatmentson the pet by using a mild shampoo and a sponge-type flea dip, flea spray, or flea shampoo. Look at your socks afterward.

### How Fleas Work

Unfortunately, some IGRs do not work well outside, since the sunshine will break them down. If the pet usually walks through certain paths either indoors or outdoors , there will also be a substantial amount of eggs scattered in those areas; similar to sowing seeds in a garden. Gather together all of your bedsheets, pillowcases, rugs, and throws.
