How to build a pond

Thank you to Tyrone Axford for coordinating the day and finally thank you to all our supporters, competitors and absent friends, who without, we wouldn't be able to run our days.

Working Tests Results

Appreciation to those who stepped in to support the Club with dummy throwing so that we could continue to run the day. Mention of sleeping in the car jogged my memory; I believe I have met AG, who pays us an annual visit for a week, camping in the car overnight between beats. The Universe has no interest in where your tripod legs are pointing.

Library

Thank you to our competitors and members who continue to support our club, enabling us to host such great events.

Feedback & Reports

Years later, a question occurs in McGuane's mind and he asks his uncle at the end of a fishing trip if his father had been a good angler.

Feedback & Reports

The deposit could be of votive origin, as could that from Bugeilyn not far away.

Myrddyn Phillips

Thank you all ðŸ™‚ Retriever Working Test, Clytha Park, Abergavenny - Saturday 23rd June 2018.

Working Tests Results

Accidents with animals are not uncommon on the Forest roads near where I live. On the other hand again, except for early July, this summer had not been so very warm.

How to build a pond

The hook-hold is either good or bad and there is nothing you can do to change it now. Today there are small numbers of muntjac and roe deer in the Forest as well.
