Lab Animal Resources A research center of the Office of the Vice Provost for Research, Indiana University Bloomington: Indiana University Bloomington

CARE provides high quality animal care and veterinary services, and advises and educates researchers, staff and students on animal experimentation issues while promoting best practices for the responsible use of animals.

Service Animal Resource Hub

For general information or to schedule an appointment to visit the Animal Resource Center, please call 919-542-7203.

South Bend Animal Resource Center

All veterinarians are cross-trained at both facilities and in all areas of research medicine. All workshops and seminars offered by DLAR are eligible to fulfill IACUC Continuing Education Credit requirements.

Animal Resource Center in Millville, Pennsylvania

Dog fighting is illegal because we care about the suffering of dogs, not because dogs suffer more than other animals. Medical registration or licensure is required for this volunteer position. In all these cases we are seeing them in terms of their usefulness to us as humans, rather than as individuals whose interest in their own lives is more important than our interest in using them.

Animal Resources, Inc.

Licenses will not be issued until all necessary paperwork is provided and the corresponding fee is paid. The judge laughed at his defense and pointed out that theft is a felony whereas animal cruelty is just a misdemeanor. Donations to SBARC go directly to the Animal Resource Center to assist in our operations and caring for our animals.

South Bend Animal Resource Center

What if we killed them humanely before ripping off their skin to make jackets rather than skinning them alive? For example, in the U. All animals 4 months of age or older redeemed from the Animal Resource Center by the owner must provide a current rabies vaccination certificate. The intranet site is restricted to on-campus and VPN users only.

Center for Animal Resources and Education (CARE)

Our target date for this move is early April. This means that OSU meets or exceeds AAALAC standards when using animals in research, teaching or testing.
