### Parenting and the Use of Physical Force

They may even throw things, break things, or punch walls and doors dangerously close by.

### The correlation of physical forces : Grove, W. R. (William Robert), 1811

Static friction results when the surfaces of two objects are at rest relative to one another and a force exists on one of the objects to set it into motion relative to the other object.

### The correlation of physical forces : Grove, W. R. (William Robert), 1811

This is because the energy required to disrupt the intermolecular forces between molecules is far less than the energy required to break the ionic bonds in a crystalline ionic compound. Check your beliefs by checking which if any of the ten causes above meet with your permission to see how force-free or force-dependent your parenting might be. Friction Force  $F_{\text{frict}}$  The friction force is the force exerted by a surface as an object moves across it or makes an effort to move across it.

### The Correlation of Physical Forces

An ion that bears a positive charge is a cation.
