International Labor Defense

They are arranged by general subjects except where specifically identified. Existing SRDRs were normalized in a manner consistent with previous efforts and productivities were analyzed using three popular software cost estimation models SLIM, SEER, and COCOMO. They passed a resolution calling for the establishment of a new international organization for the legal and economic support of left-wing political prisoners.

Guide to the Papers of the International Labor Defense on Microfilm

This data collection and evaluation approach helps ensure selection of the best vendor and defend against protests, and was recognized by Defense Procurement and Acquisition Policy DPAP as a DoD acquisition best practice. The requirement creates a challenge of balancing data collection standardization and flexibility for programs that have not been required to follow traditional data collection strategies.
