### How to Make a Wildlife Garden

We built stone paths in between our boxes which also cuts WAY down on weeds and so when I walk out to my garden I never get muddy — even after heavy rain storms. You can go with traditional pots or containers from a garden supply store, or be unique and use old vases or plastic bottles.

### How we made a garden of edible delights: monoculture to permaculture

Would you recommend tilling just to get rid of the sod and after that maintain it without tilling? They can vary in sizes, shapes and look however your child dreams.

### How to Start a Garden

Even for such a desultory gardener as me, the temptation to fall to my knees and work for an hour or two is powerfully strong. They make excellent additions to a compost heap or can be used as mulches.

### Margery Fish's We Made a Garden is a feminist manifesto disguised as a gardening advice book.

If you have decent subsoil not too clayey or rocky you can simply loosen the soil with a garden fork and build a six to eight-inch deep bed. There we have it, you now possess the necessary knowledge to build and maintain a wildlife-friendly garden.
