Orchard Culture: A Comparison of Different Methods of the Care of Apple Orchard: Bulletin No. 171 by Ohio Agricultural Experiment Station, Paperback

Land use categories in the United States, 1958, projected to the year 2010 1 item.

Ohio American Local History Network (ALHN); Early Institutions, Ohio Agricultural Experiment Station At Wooster

Records of the Bureau of Agricultural Engineering, RG 8. That whenever it shall appear to the Secretary of the Treasury from the annual statement of receipts and expenditures of any of said stations that a portion of the preceding annual appropriations remains unexpended, such amount shall be deducted from the next succeeding annual appropriation to such station, in order that the amount of money appropriated to any station shall not exceed the amount actually and necessarily required for its maintenance and support. It has planted about 20 acres in orchards, in which more than 700 varieties of fruit are now bearing.

Act of 1887 Establishing Agricultural Experiment Stations (Hatch Act)

Research focuses on the genetic improvement of a swine for maternal, performance, carcass, and pork-quality traits. Today, Ohio leads Midwest in no-till adoption with 3.

Act of 1887 Establishing Agricultural Experiment Stations (Hatch Act)

The rapid growth of the City of Columbus around the University soon showed that the time must come when its lands would become to valuable to be used for purposes of agriculture, and the permanent and largely increased income now assured the Station made it seem necessary that it should be so established that its work might be continued indefinitely without interruption.

Ohio Agricultural Experiment Station

Records of staff assistants, 1946-53. Records of the Bureau of Human Nutrition and Home Economics, RG 176.

Orchard Culture: A Comparison of Different Methods of the Care of Apple Orchard: Bulletin No. 171 by Ohio Agricultural Experiment Station, Paperback

Alfalfa varieties with potato leafhopper resistance are also being tested at Western.

Orchard Culture: A Comparison of Different Methods of the Care of Apple Orchard: Bulletin No. 171 by Ohio Agricultural Experiment Station, Paperback

The Western Station also participates in research aimed at identifying genetic traits in soybeans that can be used for the development of novel industrial products, in collaboration with the university's Ohio BioProducts Innovation Center OBIC. Alfalfa and forage grasses are also studied as part of the 160 research projects conducted at the Station every year.
