NANEL, Komatsu

Jack's second war patrol 5 September-10 October brought no opportunities for attack as engineering difficulties forced her to return prematurely to Pearl Harbor. For her highly successful and aggressive first, third, and fifth war patrols, the submarine was awarded the coveted Presidential Unit Citation. Stationed between Luzon and Okinawa, she again performed lifeguard duty until the Japanese surrender 15 August 1945.

Jack I (SS

After several more attacks Jack set course for Fremantle, Australia, her new base, where she arrived 13 March 1944. We are just a few steps away from several-hundred-year-old trees.

Jack I (SS

Reaching Pearl Harbor 21 May, the submarine took on supplies and departed on her first offensive war patrol 5 June 1943. She then began a long circling maneuver designed to bring her in front of the remaining four tankers; and late in the afternoon of 19 February she was again ready to attack. Mumford & Sons

Furthermore, 1,5-AG might suppress the blood glucose elevation through the inhibition of sucrase, as well as intestinal glucose absorption.

Prowling the pivotal Singapore-Japan shipping lanes, she encountered five large oil tankers with three escorts early 19 February.

Site

. About 60 % of 1,5-AG was excreted into the urine for 9 h following ingestion.

NANEI MARU

After her torpedo missed and she was raked with gunfire by her adversary, Jack deftly evaded the attacker and returned later to sink the Japanese ship, Mexico Maru.
