A Quick History of Philosophy

Swinburne was and is the leading advocate of theistic natural theology since the early 1970s.

Enlightenment

The history of the philosophy of science shows that most philosophers also believed in God, and that the laws of the universe had some perfection that empiricism and rationalism could uncover.

Robert Richards

Political liberty, rights, moral freedom, pure consciousness, thinking — all are absent. Although these ideas might seem to us rather simplistic and unconvincing today, we should bear in mind that, at this time, there was really no scientific knowledge whatsoever, and even the commonest of phenomena e. He reaffirmed the belief that science required a strong hypothesis predicting certain results, derived at through observation, and testing measured results against the predictions.

Has Physics Made Philosophy and Religion Obsolete?

Within this dual movement of obligation-desire, Durkheim views to a large extent the influence of religion. As the moral density increases, this changes.

Africana Philosophy (Stanford Encyclopedia of Philosophy)

Physics, more than any other field, relies heavily upon theory and maths, and so needs different structures than the previously accepted Baconian and Newtonian view of things. There has been a fair amount of sniping between these two disciplines over the past few years. But what if a person accepts a given religion as reasonable and yet acknowledges that equally reasonable, mature, responsible inquirers adopt a different religion incompatible with her own and they all share a similar philosophical methodology? The emergent third-order work defining the field has been focused on identifying for research and teaching, and for further refinements and new developments of, instances of philosophical articulations and expressions regarding what has been, and is, of thoughtful, aesthetic significance to persons African and of African descent.

Philosophy of religion

It is breathtaking to consider how quickly we have come to understand the basics of everything from star formation to galaxy formation to universe formation. Émile Durkheim: Law in a Moral Domain.

Robert Richards

The principle of the second epoch, therefore, is the Idea knowing itself. And of particular note, Du Bois studied philosophy with William James and others while a student at Harvard, and, for a moment, considered pursuing a career in the discipline.
