The Food of the Gods by H.G. Wells

The insect world will rise on us, the plant world, the very fishes in the sea, will swamp and drown our ships.

FOOD OF THE GODS

Why then, does Wells spend 50 pages on the dissatisfaction of a giant toddler? The story seemed to jump around between several different plot lines, and none of them were really resolved satisfactorily to me at least.

Some questions kept rotating in my drug hating mind works best when sober, although the brain is a vicious traitor who intrigues against us, look, a beer commercial, damn it : Did some civilizations destroy themselves by overuse of drugs? Nutshell: uppity scientists solve food distribution problem, which causes increase in proletarian demographic power, which induces proto-fascists to start a war of extermination. This perspective implies that human imagination can seize the tiller of being in the world.
