Although its content consists primarily of formal, refereed articles, Symposium also presents reviews and commentaries of appropriate substance and length.

## **Elisabeth the Chef's.**

Lutyens, often described as a musical pioneer, incorporates a highly personal and imaginative style in her use of twelve-tone technique, and her departures from the strict practice of serial writing are always highly personal and imaginative. Complete with historical perspective, musical examples, and reproductions of choral texts, this resource of important and little known contemporary choral works demonstrates the diverse approaches used by these and other contemporary composers, and contributes to the growing literature on women in music. Earning solid reputations in Britain through their varying compositional styles, their music has revealed them to be substantial, prolific composers who are representative of major trends in twentieth-century British choral composition.
