Prompting Formalisation Through Labour Market Regulation: A ‘Framed Flexibility’ Model for Domestic Work

In this report, you will be able to read about the results of the EU project in detail. .

Lithuania: Opportunities for young families to reconcile work and

By way of contrast, the proposed Directive aims to make it easier for men to share caring responsibilities on an equal basis with women and for this purpose it establishes that the 4-month period, available to each parent, is non-transferable from a parent to another. The smallest gaps for both employees and self-employed are reached in the Northern countries of Iceland, Denmark and Sweden.
