From Poverty to Power: How active citizens and effective states can change the world

From Poverty to Power argues that a radical redistribution of power, opportunities, and assets rather than traditional models of charitable or government aid is required to break the cycle of poverty and inequality. We need to build a secure, fair, and sustainable world within the limits set by scarce resources and ecological realities. Instead, what you have is a collage of references to vast amounts of information which in lieu of buttressing points ends up distracting the mind.
