The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget to comment on the information collection requirements contained in this document, as required by the Paperwork Reduction Act of 1995. This article incorporates text from this source, which is in the. Parties who file by paper must include an original and four copies of each filing.

Landsat 1

Also, in these bands, GSO FSS operations must not cause harmful interference to, or claim protection from, NGSO FSS networks. ERTS spacecraft represent the first step in merging space.

Earth as a System Community

Since 1972, Landsat has been collecting images of the Earth, with the early years of the program constrained by onboard satellite and ground systems, as well as limitations across the range. All hand deliveries must be held together with rubber bands or fasteners.

Earth Resources Observation and Science (EROS) Center

It became necessary to shut down the RBV instrument in order to maintain the operation of the satellite.

China

In the paragraphs below, the Commission addresses other changes to our rules, in addition to those discussed above in connection with the frequency bands being proposed for NGSO FSS ESIM operation.

Federal :: Earth Stations in Motion To Include NGSO Satellite Systems

The purpose of the Rivers and Lakes Protocol Bundle is to group GLOBE protocols that may provide students with the knowledge and ideas of various interactions happening in their local rivers and lakes. The Commission seeks comment on allowing ESIMs to receive signals from NGSO

FSS systems on a secondary basis in the 17.

NASA Earth Science

ADDRESSES: You may submit comments, identified by IB Docket No. The Commission seeks comment on permitting blanket earth station licensing of ESIMs operating with NGSO FSS systems. ERTS-1 was the first Earth-observing satellite launched to monitor and study our planet's landmasses.
