Mainstreaming Environment and Climate for Poverty Reduction and Sustainable Development

The World Social Summit identified poverty eradication as an ethical, social, political and economic imperative of mankind and called on governments to address the root causes of poverty, provide for basic needs for all and ensure that the poor have access to productive resources, including credit, education and training.

Dynamics of Poverty

Handbook on Poverty and Inequality

Methods of analysing well-being must always be adapted to country circumstances and the availability of data. Significant progress has been made in many countries within Eastern and Southeastern Asia, but up to 42 per cent of the population in Sub-Saharan Africa continues to live below the poverty line. Shared prosperity and the shared prosperity premium are important indicators of inclusion and well-being in any country and correlate with reductions in poverty and inequality.

Decentralization and poverty reduction : Handbook of Multilevel Finance
