They got their name from the fact that they used to be carved from wood, with the exception of the saxophone, which is historically a newcomer to the family and has never been made of wood. It uses a single reed like a Clarinet would.

## Woodwind section

The clarinet, for example, was first used in Asian and Islamic civilizations over 700 years ago.

### **Woodwind & Brasswind: Band and Orchestra Instruments Store**

Keep in mind that the smaller woodwinds play higher pitches while the larger ones play the lower notes. Examples of this type of flute include the recorder, ocarina, and organ pipes.
