Between Antrim and Ballymena the railway cutting is through drift and clay, with a single exception at Drumsough, where the cutting is for a short way through trap rock. August 9 Donnelly Young Child of John Donnelly 30 Market Street Born and died at the Lyingin Hospital.

History of Suffolk, Virginia

Murphy John Charley 1871 John Charley Isaac Murphy 1872-77 J.

Welcome to the Northern Ireland Assembly

I shall do nothing more than announce these interesting facts, waiting for the detailed publication of them by Mr.

First Aid Training Courses

The paper was illustrated by the map, and by sections, on a large scale, of various parts of the district. Ballynahinch wife of Samuel Waddell mother of Samuel b. Down From and born at Bath Her family in Belfast February 23 David Clark Decline Aged 7 Son of Mary Clark Died in Poor House.

Full text of the Royal Geological Society of

Milward, pointing out the perfect analogy which exists between this wrinkling of the mud in the slide, and the production of the less and more compact wave on the ice, and stating his belief that the phenomena of ridges or wrinkles is a general one, depending on the toughness of a semi-fluid or semi-solid mass, forcibly compelled to advance or extend itself.

Genes Reunited

These courses are delivered at the CAFRE Campuses and at local outreach centres throughout the North. This portion includes the oniyalves only, and in it we find descriptioiis of two hundred and fifty species, illustrated hy upwards of five hundred figures, engraved by G. .

Historic station data

Adopting, therefore, in some degree the same classification of sub- jects, as in the remarks I had the honour of addressing to you last year, we have first to notice briefly such papers on descriptive geo- logy, as have, during the twelvemonths since elapsed, tended to throw additional light on our knowledge of the structure or forms of the earth's surface, of the laws which control its variations, and of the distribution of the many members into which its rocky skeleton may be divided.

Suffolk

Fonnet, in which we have largely crystalline greenstones, unques- tionably the result of an alteration induced in originally laminated schists ; and when some analyses at present in progress shall have been completed, I hope to find results very similar to those which he has given. CHAPTER 7
SONS OF DRUMBEG The Venerable William Barnett M. However the department has now agreed a marketing plan for the.
