## George Washington criticizes “taxation without representation”

Image: Citrus trees, more used to February sun and warmth, are blanketed in ice. While conflict sometimes erupted between towns, intimate connections ensured a sharing of resources between neighboring communities.

## George Washington's Life · George Washington's Mount Vernon

Today that seems like a fantastic deal, but to these pioneers, it was a lot of money.

## The Coon Chicken Inn: North Seattle's Beacon of Bigotry

Rather than demolishing his old house and fully redeveloping his property, he moved the house to the back of the lot and filled his First Avenue frontage with displaced buildings purchased and relocated from across the street.

## Washington Mulling Name Change

Another Washington landmark, Mount St. Each side chooses a leader. The disagreements were part of the deepening division between Federalists and Republicans.

## Nick Coleman: Ernest Wabasha, at rest now in a familiar churchyard, his own work done

A house's frame was seen as a body on its hands and knees, with the front of the house being called the face. The strain this put on Jane made her very ill, and she died in 1862.

## Church History Tells Stories of Extraordinary Pioneer Youth

Coll-Peter Thrush was born in 1970, and grew up next door to the Muckleshoot Reservation southeast of Seattle. The American History Museum is home to a critical relic of the farewell address. It has long been considered offensive to Native Americans, and in recent years, , which he previously refused to do.
