The Rise and Fall of a Tudor Wool Factory

And even where there was sufficient support from merchants, undercapitalization prevented the companies from yielding the expected profits. At the level of the manor this might be a fairly mundane matter of agricultural policy, but could also include sentencing by the lord for criminal offenses, including capital punishment in some cases. In the eighteenth century, the WIC was transformed into an organization that managed the Dutch colonies, after it lost its last monopolies, including the slave trade.

With a declining birthrate and population, labor was the key factor of production. Needless to say, the wool men and their allies who had engineered the murder were intent on hushing it up, and two different London-based juries persisted in declaring the murderers innocent of all charges. The manor formed the basic unit of feudal society, and the lord of a manor and his serfs were bound legally, economically, and socially.
