Methods of inducing ovulation when many years the most dramatic advances in the science of about whether to have children contraception has fails to occur naturally are improving all the time physiology the study of the functions of living made it possible to choose when to have them. A New Life tells you all you need to know about conception and pregnancy, labor and birth, and the care and growth of your child in the first year. It is based on the belief that the more straightforward, up-to-date information parents have at their disposal, the more they will be able to understand and enjoy this remarkable time.

A New life : pregnancy, birth, and your child's first year (Book, 1979) [tech.radiozamaneh.com]

The book presents information on such topics as home versus hospital birth, natural versus medicated delivery, and breast- versus bottle-feeding.
