B ALBSB1- International Shorebird Survey. R202-i31 67A Nelson, Duane F and Burton, Leroy H DESIGN OF PRESTRESSED MULTIBEAM BRIDGES USSR Rept 08-4, Canals Br, June 1967. In 1973, the Denver Water Board authorized us to conduct the environmental assessment for the Foothills project, especially the portion in the South Platte River.

The Weather Channel

This announcement was followed by a decision to close the office which resulted in the resignation of Maurice Kaya, Jenni Wong moving to Gray, Bills and Hong, and the majority of the remaining staff moving to other opportunities.

Methodology is given for evaluation of daily, monthly, and annual discharge estimates. Radiotracers used in stream discharge measurements are discussed and measurements made by different research workers are described.

Human

A comparison of the structure, primary productivity, and transpiration of cypress ecosystems in Florida. This led to studies for the Port of Benton in Richland. We firmly believe that no one single other office in the company has had the impact that the WDC office has had on the long-term business growth of this firm.

2 Regional Context for Water and Species

Studies of the life history and ecology of the red swamp crawfish, *Procambarus clarkii*, in the Lower Atchafalaya River Basin Floodway. Clear Lakes Hydropower, Snake River, ID.
